

Orlando FSDO FAAS Team presents:

A nighttime visual approach to Pompano Beach, FL

I accepted a visual approach to the Pompano Beach airport at the end of my nighttime flight. Now, on a moonless night while looking at an ocean of lights below me, I can't find the airport nor the traffic that I've been instructed to follow on final approach. What would YOU do in this scenario? Perhaps you're not completely clear on the differences between Visual Approaches, Contact Approaches, and full Instrument Approaches; most pilots conclude that understanding the differences can be challenging let alone their pilot responsibilities. Come share your approach preferences & experiences and increase your knowledge of approach options for successfully concluding an instrument flight. None of us are immune from potential problems like those experienced by our scenario aviator; we need to be prepared and learn from each other. This WINGS event will yield 1 Advanced Knowledge credit and is available for all pilots who attend. This seminar also serves as the monthly IMC Club meeting.

Directions: The Vigilante Room at Sanford Airport; it's in the Rental Car Building near the Commercial Airline Terminal. If you fly in to KSFB for this WINGS event, you can park at Millionair FBO and get a courtesy ride over to the seminar's location in the Vigilante Room.

Event Details

Mon, Sep 15, 2014 - 19:00 EDT
Vigilante Room, Sanford Airport
(KSFB)

1200 Red Cleveland Blvd., Sanford,
FL

Vigilante Room at Orlando Sanford
Airport

Sanford, FL 32773
